Residential Weatherization	Vintage	House Type	Pre-Condition	Post-Condition	Unit of Measure	Customer Rebate per Unit	Total Measure Cost Cap
Attic Insulation	Existing Construction	SF-Site Built OR Multi-Family	Less than R-11	Minimum R-38	Sq/Ft	\$ 0.60	100% of Cost
Attic Insulation	Existing Construction	SF-Site Built	R-11 to R-19	Minimum R-38	Sq/Ft	\$ 0.20	100% of Cost
Attic Insulation	Existing Construction	SF-Manufactured	Less than R-11	Minimum R-22	Sq/Ft	\$ 0.30	100% of Cost
Under Floor Insulation	Existing Construction	SF-Site Built OR Multi-Family	Less than R-11	Minimum R-30 (or fill cavity)	Sq/Ft	\$ 0.25	100% of Cost
Under Floor Insulation	Existing Construction	SF-Manufactured	Less than R-11	Minimum R-22	Sq/Ft	\$ 0.25	100% of Cost
Wall Insulation	Existing Construction	SF-Site Built OR Multi-Family	R-0	R-11 (closed cavity) R-15 (open cavity)	Sq/Ft	\$ 0.50	100% of Cost
Windows	Existing Construction	SF-Site Built OR SF-Manufactured OR Multi-Family	Single Pane, Single Pane w/Storms, OR Double Pane w/Metal Frame	U-Factor Less than or Equal to 0.30	Sq/Ft	\$ 3.00	100% of Cost
Insulated Exterior Doors	Existing Construction	SF-Site Built OR SF-Manufactured	Un-Insulated	ENERGY STAR Qualified; Threshold Replaced	Door	\$ 40.00	100% of Cost
Whole House Air Sealing	Existing Construction	SF-Site Built OR SF-Manufactured	Home w/Air Leakage	Documented Pre and Post CFM50 Leakage Reduction	CFM50	\$ 0.20	100% of Cost
Residential Appliances	Vintage	House Type	Pre-Condition	Post-Condition	Unit of Measure	Customer Rebate per Unit	Total Measure Cost Cap
Clothes Washer (Electric Water Heater)	New	SF-Site Built OR SF-Manufactured OR Multi-Family	Any	ENERGY STAR Qualified Front Loader - (Top Loaders do not qualify)	Unit	\$ 30.00	100% of Cost
Clothes Dryer (Electric Water Heater)	New	SF-Site Built OR SF-Manufactured OR Multi-Family	Any	Any ENERGY STAR Electric Clothes Dryer	Unit	\$ 50.00	100% of Cost
Residential Lighting	Vintage	House Type	Pre-Condition	Post-Condition	Unit of Measure	Customer Rebate per Unit	Total Measure Cost Cap
ENERGY STAR rated Hard-wired LED Fixture/Retrofit Kit	New OR Existing Construction	Any House Type	Incandescent OR Compact Fluorescent	ENERGY STAR Qualified	Fixture	\$ 5.00	100% of Cost
Residential New Construction Homes	Vintage	House Type	Pre-Condition	Post-Condition	Unit of Measure	Customer Rebate per Unit	Total Measure Cost Cap
New Manufactured Home	New Construction	SF-Manufactured		NEEM Certified; ENERGY STAR Qualified; Forced Air Electric OR Air Source Heat Pump	Home	\$ 1,200.00	n/a
Residential HVAC	Vintage	House Type	Pre-Condition	Post-Condition	Unit of Measure	Customer Rebate per Unit	Total Measure Cost Cap
HP Upgrade to Air-Source	New OR Existing Construction	SF-Site Built OR SF-Manufactured	Air Source Heat Pump Upgrade OR Add to System with non-electric heating system (i.e., gas/oil/propane/wood) OR Upgrade from Zonal Electric Resistance	Min. 9.0 HSPF/14 SEER PTCS CERTIFIED	System	\$ 500.00	100% of Cost
Heat Pump Conversion to Air Source Heat Pump	Existing Construction	SF-Site Built OR SF-Manufactured	Forced Air Electric	Min. 9.0 HSPF/14 SEER PTCS CERTIFIED	System	\$ 1,400.00	100% of Cost
Heat Pump Commission & Controls Only	Existing Construction Only	SF-Site Built OR SF-Manufactured	New Heat Pump PTCS Certified *Can not be combined with any other heat pump measure	Greater than 7.7 HSPF/13 SEER and Less than 9.0 HSPF/14 SEER PTCS CERTIFIED	System	\$ 300.00	100% of Cost
Any Heat Pump	New or Existing Construction	SF-Site Built OR SF-Manufactured	Non-BPA qualified	New Heat Pump Not BPA Qualified	System	\$ 150.00	100% of Cost
Ductless Heat Pump	Existing Construction	SF-Site Built OR SF-Manufactured	Forced Air Electric	BPA Qualified	System	\$ 1,000.00	100% of Cost
Ductless Heat Pump	Existing Construction	SF-Site Built OR SF-Manufactured	Zonal Electric	BPA Qualified	System	\$ 800.00	100% of Cost
Duct Sealing	Existing Construction	SF-Site Built OR SF-Manufactured	Forced Air Electric OR Air Source Heat Pump	PTCS or Prescriptive	System	\$ 250.00	100% of Cost
Residential Water Heating	Vintage	House Type	Pre-Condition	Post-Condition	Unit of Measure	Customer Rebate per Unit	Total Measure Cost Cap
Heat Pump Water Heater (Any Size)	New OR Existing Construction	SF-Site Built OR SF-Manufactured	Existing Construction must Replace Electric Storage Tank	Any Tank Size Tier 1	Unit	\$ 300.00	100% of Cost
Heat Pump Water Heater (Any Size)	New OR Existing Construction	SF-Site Built OR SF-Manufactured	Existing Construction must Replace Electric Storage Tank	Any Tank Size Tier 2 - 3	Unit	\$ 500.00	100% of Cost
